

Our Non-Illuminated system consists of only 2 profiles, the wall-mounted Frame and the Clip-on Cover.

It is ultra-slim with a depth of only 30mm and is extremely easy to manufacture and install. The frame is fixed directly to the wall and the clip-on cover requires no screws.

So if simplicity and economy are at the top of your priority list, then this system could be the product for you.

Non-Illuminated DETAILS

- Pairs with the famous Black Clip for ease of installation
- 30mm depth perfect for large-scale non-illuminated applications
- No internal supports required. Fix the frame directly to the wall
- Take deconstructed frame to site, saving on time and hassle during transport
- Lengths available in 5.1m and 6.1m for more efficient manufacture
- Clip-on cover designed to eradicate the need for external fixings
- Can be installed close to obstructions with the help of our 5138 Reverse Tension Tool

Durable

Wind tested to hundreds of mph and zero system failures in over 30 years.

Sustainable

Reusable clips coupled with aluminium extrusions that are fully recyclable

Versatile

Lightweight and sleek yet super strong for large scale signs - can also be shaped.

Easy Assembly

No need for sewing, rods, clamps, eyelets or springs with our Black Clip System.
