

The SignComp Tensioning System's success is directly attributed to the unique method of tensioning.

By 'clipping' the vinyl, you have a print that needs no finishing - No rods or sewing, no clamps or bolts and no eyelets or springs. Our Clips are easily adjustable and allow for large tolerances, meaning you are guaranteed a perfect finish every time.

Save time and hassle today!

## Black Clip DETAILS

- Pairs with all SignComp Flex Face Systems, meaning one clip fits all
- Several Tension Tools available to speed up install no matter the system
- Prints can easily be changed with the help of a simple flat-head screwdriver
- Made from a Delrin-Based Industrial Polycarbonate resulting in a long-lasting and reusable product
- Comes in two-parts, the clip and mandrel. Madrels can be bought separately
- Purchase bespoke quantities or in bags of 100 or boxes of 600. Price breaks available

### ▶ Durable

Wind tested to hundreds of mph and zero system failures in over 30 years.

### ▶ Sustainable

Made from hardy materials, these reusable clips will last you a lifetime.

### ▶ Flexible

Working with larger tolerances and easily adjustable clips leads to better results.

### ▶ Easy Installation

Easy to clip on and remove from vinyl. A breeze to install and maintain on site.
