

Econoflex is a robust, lightweight and economical Flex Box System designed to save you time and money.

Specified on thousands of projects, our 165mm depth option would typically be used for large, illuminated boxes on retail parks and industrial estates alike.

If making an impact is important for your project, then look no further than Econoflex.

### 165mm DETAILS

- Pairs with the famous Black Clip for ease of installation
- 165mm depth perfect for illumination on a large scale
- Bespoke internal supports for both strength and fixing points
- Can be built in sections for ease of transportation and installation
- Lengths available in 5.1m and 6.1m for more efficient manufacture
- Can be shaped to create lettering or match brand guidelines
- Channel designed to hide fixings and help with water run-off

#### **Durable**

Wind tested to hundreds of mph and zero system failures in over 30 years.

#### **Sustainable**

Reusable clips coupled with aluminium extrusions that are fully recyclable

#### **Versatile**

Lightweight and sleek yet super strong for large scale signs - can also be shaped.

#### **Easy Assembly**

No need for sewing, rods, clamps, eyelets or springs with our Black Clip System.
