

Econoflex is a robust, lightweight and economical Flex Box System designed to save you time and money.

Specified on thousands of projects, our 196mm depth option would typically be used for extra-large, illuminated boxes on retail parks and industrial estates alike.

If making an impact is important for your project, then look no further than Econoflex.

### 196mm DETAILS

- Pairs with the famous Black Clip for ease of installation
- 196mm depth perfect for illumination on a extra large scale
- Bespoke internal supports for both strength and fixing points
- Can be built in sections for ease of transportation and installation
- Lengths available in 5.1m and 6.1m for more efficient manufacture
- Can be shaped to create lettering or match brand guidelines
- Channel designed to hide fixings and help with water run-off

#### **Durable**

Wind tested to hundreds of mph and zero system failures in over 30 years.

#### **Sustainable**

Reusable clips coupled with aluminium extrusions that are fully recyclable

#### **Versatile**

Lightweight and sleek yet super strong for large scale signs - can also be shaped.

#### **Easy Assembly**

No need for sewing, rods, clamps, eyelets or springs with our Black Clip System.
