

Zeta Light Guide Panel

zeta
Specialist Lighting

Designed, machined and assembled in the UK, Zeta Light Guide Panels provide a flexible and efficient back lighting solution for a variety of applications; including signage, shop fitting, architectural, commercial and advertising.

Each Light Guide Panel is made from the highest quality UK acrylic and is etched with a unique, optimum performance grid pattern. This pattern ensures optimum light spread and shadow free illumination.

With an ultra slim profile starting from just 6mm, Zeta LGP is space saving, easy to install, available in bespoke sizes and comes with single or double sided options.

Ultra efficient LED's are available in a range of colour temperatures along with RGB options; providing scope for a variety of different effects and mood lighting, ideal for commercial and retail applications.
